SECTION 4: MANAGEMENT WITHIN THE MONITORED SUBPOPULATION(S)

Submit historic information only once. If historic information was previously submitted, **include only management occurring within the time period used above under 'Hydrology'**. If there was a gap since last submission, provide information for intervening years.

BURNING or MOWING – Please specify: Burning (B) or Mowing (M)

Mowing denotes clearing of herbaceous material or small brush for community management, in open areas, not trail maintenance. The use of large machinery to remove primarily woody material should be listed below, under invasive species management.
